

# ILLUSTRATION IN GD // (ASSIGNMENT) CHARACTER DESIGN

This assignment will give students the chance to explore the world of character design. In most stories, games, movies, mascots. The design and illustration of a character holds the utmost importance. A character illustration gives its audience the chance to connect on a more personal level.

In this assignment students are to design and illustrate a character for a story or game of their choosing. The character illustration must be completed in 6 different views and poses. Keeping in mind that each pose and view the character must maintain the same look through out. As an illustrator this is one of the most difficult aspects to re-draw the same looking character over and over again.

Along with your character illustrations please create a name and draw it on the page, making sure that the font selection you choose suits the character illustration. Traditionally illustrated in full colour.
